

Certificate

With this certificate First Climate confirms that

bsf swissphoto 

supported certified climate action with carbon emissions reductions or removals in the amount of:

1.101 t CO₂e

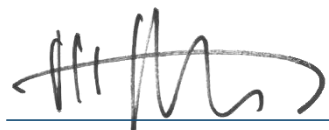

We calculate Scope 1, 2 and 3 emissions for our three airplanes and have been supporting verified climate protection projects for the emissions generated since January 2022.

In detail, the following verified climate protection project was supported:

Electricity from hydropower, Maharashtra District, India

and the corresponding carbon credits have been permanently retired from the market.

Bad Vilbel, February 2025
