

BSF Swissphoto – For over 90 years, we have been shaping the geospatial industry with passion, innovation and precision. As a long-established Swiss-German company, we have made a name for ourselves through our commitment to excellence and our dynamic approach. Our modern fleet of aircraft and our cutting-edge infrastructure make us a pioneer in the world of 3D mapping and consulting.

For our **Schönefeld (Berlin)** site, we are looking for you as:

LiDAR Project Manager (m/f/d)

What will your responsibilities be?

- Management of national and international projects in the field of airborne laser scanning
- Processing of airborne laser data into basic products such as georeferenced and classified point clouds, as well as the production of products such as DGM/DOM rasters, coloured point clouds, hillshades and difference models
- Further development of processes and methods within the team
- Establishing and maintaining customer contacts

What you bring to the role:

- Completed degree in geomatics (university, university of applied sciences, vocational training), surveying, cartography or equivalent
- >3 years' professional experience in the described field
- Strong organisational skills and a high sense of responsibility
- An understanding of effective project management
- Interest in developing and applying innovative solutions
- Creative 'out-of-the-box' thinking, flexibility, ability to work in a team
- German (spoken and written), good command of English

We offer:

- Work as part of a motivated, international team with extensive experience
- A varied role with opportunities for development
- A creative environment in which to contribute and implement your own ideas
- Flexible working hours and the option to work from home

We look forward to hearing from you. Please send your full application by email to: jobs@bsf-swissphoto.com
